TRIED THREE DOCTORS TO AID DYING BABE; 4TH CAME TOO LATE

Father of Little Helen Leona Smith Startled Coroner's Jury.

INQUEST YESTERDAY

Jury of Opinion Child Was Smothered—Coroner Whetston Provoked.

A young father, Arthur Smith, testified before a coroner's jury yesterday afternoon, that he had attempted in vain to get three physicians to come to his home shortly after 3 o'clock yesterday morning to attend his baby daughter, Helen Leona, aged four months, when they had found the little one unconscious in their bed at that hour, and that when finally Dr. C. C. Kost, the fourth physician called, arrived at about 3:45 o'clock the baby was dead.

The testimony offered at the inquest was by the baby's parents, her grandmother and Dr. Kost. The mother stated she had awakened at about 3 o'clock and had noticed that the baby did not look well, she had aroused her husband from a sound sleep and called her mother, Mrs. Anna James, who resides with them. Her husband immediately dressed

Pulled Racing Stunt in Front of Police

Earl Thompson's big Abbott-Detroit automobile will "do" about 60 miles an hour in a pinch, so yesterday afternoon when a friend hailed him at the corner of Galena avenue and Second street and asked to be rushed to the I. C. passenger station to catch the southbound train, which the friend said was already in, Earl proceeded to "rush." He made the mistake of doing his rushing down Second street, right in front of the city hall, where Chief Van Bibber and Officer Seagren were seated.

They immediately got the patrol out and started after the "Good Samaritan," but he was out of sight when they got out of the building. They proceeded, however, and met Earl at the corner of Third street and Madison avenue, when he was returning from the depot. Justice Gehant assessed him \$3 and costs for causing the cops so much anxiety.

One City, Why Not One School System?

By Henry S. Dixon.
The two school districts into which Dixon is divided should be made into one district for several reasons, among others the following:

1. One district should result in a better school organization and, as a consequence, an improved discipline and scholarship.
2. One district would tend strongly to wipe out the foolish ill feeling and strife that at times divides the north and south sides. If our children were taught when young that this is one community and not two, they would carry the lesson through life.
3. We have one city organization and one township organization in this territory. In like manner we should have one school organization.

Memorial Service for Eddie Bott March 9th

A memorial service will be held for Eddie Bott, who died at American hospital No. 103 at Dijon, Cote d'Or, France, on January 22, at the St. Paul's Lutheran church of this city, of which he was a member on Sunday evening, March 9th. Fifty-one stars are on the church's service flag, and one is now golden. Mrs. Bott has received official notice of the death of her son from lobar pneumonia and word has been received that his remains were buried with full military honors at an American cemetery at Dijon.

The captain of the deceased's company has written a very comforting letter to the mother, which will be read at the contemplated service. Eddie Bott was born in Dixon, May 24, 1889. He was on the Metz front 21 days and with the 78th division that drove the enemy sixteen miles just before the armistice was signed. In his last letter to his mother, written December 17th, he said he expected to be home the last of February.

LOCAL AUTHORITIES WATCH FOR MEN WHO BLEW LELAND SAFES

Three Strong Boxes at Town Twenty Miles East of Mendota Entered.

COMING THIS WAY?

Three Men in Ford Stopped at Mendota and Asked Way to Amboy.

Three men who are believed to have blown three safes at Leland, twenty miles east of Mendota, sometime during the night "are thought by the authorities of LaSalle county to be hiding between Mendota and Sublette or Amboy, and in response to a message received this morning from Sheriff Curt Ayres, of Ottawa, Sheriff Schoenholz has aroused all of his agencies to watch for the men.

At a very early hour this morning three men in a Ford automobile, the driver of which was described as being heavy set, drove into Mendota hurriedly and inquired the way to Amboy. They left in that direction as soon as they had received the information for which they asked, and farmers along the road and deputy sheriffs and city officials in Sublette and Amboy, as well as other Lee county towns have been asked to watch for them.

Roads Are Heavy.
Because the dirt roads north of Mendota and all about Sublette are extremely heavy as the result of the rain which fell last night and this morning it is not believed the fugitives, if the three men in the car are the safe blowers, could have progressed far, and it is thought they may have gone into hiding awaiting darkness to resume their efforts to escape.

Sheriff Ayres' information to the Lee county officials did not state what was taken by the safe blowers at Leland.

"GERMANY MUST BE FETTERED"

Senator Lodge Says She is Again Menacing the World.

THREATS AFTER WHINE

Big Crowd Hears Republican Leader Discuss League.

By Associated Press Leased Wire
Washington, Feb. 28.—A crowd, larger than any that has gathered in the Senate since the debate on the league of nations began, assembled today to hear Senator Lodge of Massachusetts deliver a warning to the American people that they must weigh carefully the constitution of the proposed league and must insist upon its revision.

The Senate, in session until 1:15 o'clock this morning, met again at 10 o'clock, and when the Republican leader began to speak soon after nearly every Senator was in his seat, the diplomatic galleries were filled and the crowds in the other galleries overflowed into the corridors.

Engenders Misunderstanding.
The Massachusetts Senator declared that the constitution of the proposed league as it now stands engenders misunderstanding and strife instead of safeguarding peace. He added that the constitution makes no provision for the election of the delegates of each nation and declared that these delegates should either be selected by the people or in the same manner as U. S. ambassadors; that is, appointed by the President with the approval of the Senate.

No Voice for Huns.
In this connection, in his judgment, he said he saw no intention of according Germany membership in the council.

Senator Lodge is expected to be chairman of the powerful committee on Foreign Relations in the next Senate, which body will act upon the peace treaty and its plan for the league of nations.

The Senator said that while in the interest of peace it might be necessary to abandon the Monroe doctrine and the policies of Washington and other American leaders, the nation should reflect carefully before doing so.

"No Bridge to Russia."
We must build no bridge across the chasm which now separates American freedom and order from Russian anarchy and disorder," he declared.

Amendments proposed by Senator Lodge specifically provide for excluding the Monroe doctrine from the league's purview. Immigration and internal and domestic problems and those not of international moment should also be excluded from the league, the Senator added.

He also declared there should be some provision whereby a nation could withdraw from the league at any time that nation so desired.

Wars Start in Europe.
"It must be remembered," Senator Lodge said, "that if the United States enters any such league it will be for the benefit of the world and not its own. If we join the league it will be with the view of maintaining peace in Europe, where all the great wars have originated."

The Senator's paramount duty, he said, is to conclude peace with Germany, and he added:

"Much time has been wasted, and the delays have bred unrest and confusion everywhere. Germany is again lifting her head, and her whimpers of defeat are changing to threats. Germany is seeking to annex 9,000,000 Germans in German-Austria. She is reaching out in Russia and is extending her financial and commercial interests. Germany is again the area in which the only source is to be found for wars in the future as they have been in the past. She should now be chained and fettered and the menace to the peace of the world removed."

WILL PROBABLY UPHOLD CHARGE OF SHURTLEFF

By Associated Press

Springfield, Ill., Feb. 28.—The sub-committee of the house committee on license and miscellany, named to report on the conditions at Zion City is expected to advise the standing committee that conditions are substantially as represented in the Shurtleff resolution asking an investigation of Wilbur Glenn Voliva's real estate operations.

The sub-committee, in Chicago, examined a hundred or more "independents." It was understood a report would be formulated in executive session at once and the recommendations submitted early next week.

Sixty five per cent of the population of Zion City, it was declared, is among the "independents" who are said to be subjected to the "whims" of the Zionists.

Representative Sidney Lyon, Chicago, heads the sub-committee.

Has Scheme to Add to County Revenue

By Associated Press

Springfield, Ill., Feb. 28.—Senator Hull of Chicago is sponsor for a bill in the senate that would subject to a tax of ten cents on each hundred dollars of valuation all transfers of real property or interests therein by "deed, grant, bargain, sale or gift not made in contemplation of death of the grantor, vendor or donor, and not intended to take effect in possession or enjoyment at or after death." The tax would not apply where property value is less than one thousand dollars. It would go into the country treasurer where collected. The bill was referred to the revenue and finance committee.

Deputy Sheriff Phillips transacted business in Steward today. Mr. and Mrs. Herwig were here Thursday from Franklin Grove.

Miss Esther Utch, of Naperville, Ill., was the bridesmaid, and Edgar Matthieson, of Ottawa, best man. The double ring service was used, during which Miss Dorothy Utch, a niece of the bride, played and Miss Florence Reis, an intimate friend, sang, "I love You Truly" by Carrie Jacobs Bond. The bride was gowned in Georgette crepe over white silk and carried a large bouquet of bride's roses. The bridesmaid wore rose colored Georgette crepe over cord colored silk; Miss Reis was dressed in white mesaline over pink silk. The groom and his best man were in full soldier's uniform, both having been recently discharged from the army.

Only the immediate friends and nearest relatives were in attendance. After the ceremony a bountiful lunch was served at the home of the bride's parents. The happy couple left Thursday noon at 12:30 for California, intending to stop on the way at Salt Lake City and other points of interest. The good wishes of many friends accompany them. On their return they will take up their residence in Sublette.

FOR WEDDING ANNIVERSARY.
Mr. and Mrs. James Feldkirchner, of 715 West Second street, entertained yesterday a company of thirty relatives in honor of the fortieth anniversary of their wedding, although the position of hosts came as quite a surprise to them, as they had issued no invitations and had not been previously warned by the guests. The affair was indeed a most happy surprise for them as they had no other thought than to celebrate the day quietly. At noon a scramble luncheon was served by the guests, a very feast of good things. Two beautiful bouquets graced the table, one of red carnations, and the other sweetpeas, presented them, together with their containers, a handsome cut glass vase and one of fancy cream-colored pottery. Another gift, a cut glass dish, was also presented to the honored couple. The afternoon was one of pleasant social chat, enlivened by musical number. Many were the wishes of the guests that Mr. and Mrs. Feldkirchner should celebrate many more such happy anniversaries. Among the guests were their four children, Mesdames John Wadsworth and Harrison Wadsworth and Miss Dora, of this city, and LeRoy Feldkirchner, of Sterling.

WOMEN IN BUSINESS.
Woman's power in America is well illustrated by the thousands of women who entered almost every line of business to replace men who were drafted during the war. Health proved their strongest asset. Many women, however, developed weak, nervous conditions and could not stand the strain of a business life. Such women should remember there is one tried and true remedy in Lydia E. Pinkham's Vegetable Compound, which for forty-five years has been restoring health and strength to the women of America.

The Promoter's Wife

By JANE PHELPS

NEIL TELLS BARBARA MORE ABOUT HIS BUSINESS.

CHAPTER XXIX.

"What in the world did Mr. Rayburn mean when he said I was asking a good deal for a promoter's wife?" I asked.

"What did you say to him to call forth a remark like that?"

"I said I was more anxious to see the workings of the mines in which you were interested, than I was in seeing the people of Mexico."

"What brought up the subject?"

"There was a frown on Neil's face—the kind of look I had learned to dread."

"He asked me if I ever had visited Mexico."

"And you told him?"

"That I hoped to go with you if you went again," I interrupted.

"Rayburn is all right, but he is apt to think things. Be very careful what you say to him."

"What things—what do you mean?"

"Oh, nothing in particular. He prides himself upon his skill in reading character; and sometimes he is pretty shrewd in getting information from people without the one he is talking to realizing he is pumping them."

This conversation had taken place in the car on the way home from Blanche Orton's dinner. Neil did not appear sleepy, and seemed inclined to talk after we reached home. So we went into the library, where, in spite of all I could say, he took another drink—his "nightcap" he called it.

Suddenly I thought:

"This is a good time to urge him to tell me about his business." So I commenced:

"Neil, please tell me how you sell the mines you get hold of? That is what you do, isn't it?"

"I don't sell mines at all. I sell stock, shares."

"But it is mining stock?"

"Yes. Naturally."

"But just how do you go about it? Do you do it by mail? I saw such a stack of circulars and addressed envelopes the day I was down at the office—the day you were not there."

"In what way will it be a killing?" I am almost ashamed to say that I questioned Neil with more confidence because he had taken another drink. Liquor seemed always to make him talkative. I didn't want him to take it, had objected; but so long as he paid no attention, I would try to turn it to advantage. I so wanted to know what Mr. Frederick referred to when he said others would suffer from Neil's business methods if he did not.

"Why, because he'll take stock, of course—a big block of it."

"But if the mine is worth what you ask, and you had to pay for it, how can you make a killing if he does buy the stock?"

"Oh, let's go to bed. You make yourself attractive to him, and let me attend to the rest."

Sacks of candy, at each place as favors, were tied with red ribbons. Hot chocolate, nabiscoes, ice cream, and cake were served. Afterwards there were games for the children, the ladies busying themselves with fancywork. Victrola music was also enjoyed. Master George was remembered with a number of handsome presents. PHYSICIANS MAY BE PLACED UNDER CONTROL

Measures Introduced in General Assembly to Require Annual License.

By Associated Press
Springfield, Ill., Feb. 28.—Bills are being prepared to amend the state medical practice act so that physicians will be required to renew their licenses annually and pay a nominal fee for the renewal.

Vigorous opposition is being manifested from certain medical circles. It is declared foes of the proposal fear it will be difficult for some physicians to maintain their right to practice under the high standards set by the statute.

At its last meeting, the Illinois State Medical Association favored a bill to require renewal of licenses every year, thereby eliminating unworthy physicians.

The department of registration and education has been attacked because of its advocacy of the legislation.

Trades and professions under the department, now subject to annual license renewal, are barbering, chiropody, dentistry, embalming, horse-shoeing, nursing, pharmacy, plumbing, structural engineering and veterinary medicine and surgery.

At the mid-continent congress for a league of nations, held at St. Louis, William H. Taft, former president, challenged Senators Poindexter, Borah and Reed to "put their fingers on the clause in the constitution that forbids the United States to assume the obligations of the covenant of a league of nations." Incidentally Mr. Taft demanded that they suggest another remedy (to prevent war) or hold their peace, asserting that they are "merely destructive critics and not in search of a solution of the difficulty." Like all other moot questions, there are undoubtedly two or more sides to this one, and it may take considerable argument and investigation to decide on the best course.

CRITICISM OF COURT
MARTIAL SYSTEM OF
U. S. ARMY IN HOUSE

Johnson of South Dakota
Declares Pershing De-
fied Department.

Washington, D. C., Feb. 27.—Criticism of the present court-martial system in the army was renewed in the house today by Representative Johnson of South Dakota, who recently returned from France after serving in action as a first lieutenant. He cited a list of cases in which he said excessive penalties had been imposed.

Representative Johnson declared that Gen. Pershing within the last few days has refused to send pending court-martial cases to the judge advocate general for review.

"I am informed," he said, "that by general order No. 844 the war department, since the discussion of this question, ordered the commander in chief of the American expeditionary forces in France to return for revision all cases of men sentenced under court-martial and the commander in France has absolutely refused to comply with that order on the theory that the articles of war do not provide that he shall be forced to make the return.

Six Death Penalties.

"I am informed and believe it to be the fact that among those cases there are about six where men are sentenced to death, and will die unless some action is taken by this house prior to the next session."

Mr. Johnson said that if followed, the existing military code in many cases does not permit of justice.

"The code and procedure under it are an offense to any enlightened sense of natural justice and to fundamental principle of law," said Mr. Johnson.

HOOSIER

— the Kitchen Cabinet that saves miles of steps

"Kitchen Work Is Now a Pleasure"

Efficient housekeeping methods are as important as capable business management. Yet thousands of women continue to work under conditions that are little better than primitive while men are aided in their daily tasks by dozens of time and labor-saving appliances.

Busy men would not countenance the restrictions that kitchen labor imposes upon women. So why should women, who comprise America's biggest industry, permit drudgery to take its toll in precious time and energy?

Household efficiency should begin with

the installation of the Hoosier Kitchen Cabinet. It will save miles of needless steps, hours of wasted time and precious energy. It will make kitchen work a pleasure for you as it has for nearly a million and a half housewives.

This store is the home of the scientific Hoosier Kitchen Cabinet. Come and see the many models. Let us demonstrate their many patented conveniences and exclusive features. Let us show you how this cabinet will actually cut your kitchen work in half.

Because of enormous production, Hoosiers are moderately priced.

TRIED THREE DOCTORS TO AID DYING BABE; 4TH CAME TOO LATE

(Continued from Page One)

and hurried to a neighbor's to telephone for a physician, with the above stated result, while the grandmother started rubbing the babe's limbs. The grandmother said that when she took the child its body was warm, but that there was little sign of life.

"Get Somebody Else."

The father then took the stand and told of his efforts to get a doctor. The first one called, he said, replied was "was sick"; the second said he "had a call to make early in the morning" and the third, according to the father's testimony, replied: "Humph! Get somebody else."

Dr. Kost testified that the child was dead when he arrived and said death might have resulted from suffocation, infantile convulsions or from epilepsy, the presence of slimy phlegm in the mouth being indicative of one of the three causes.

Unknown Causes.

Although there was no direct evidence to that effect the members of the jury were inclined to the belief that the child was smothered as it slept between its parents; but a verdict of death from unknown causes was returned.

Coroner Whetston was considerably provoked because he had not been called until after noon yesterday, and some of the members of the jury expressed their opinion of the three physicians who had failed to answer the call, in unmistakable terms.

Buried This Afternoon.

The remains of the little one were laid to rest in Oakwood cemetery this afternoon, with simple services at the house.

GEORGE F. EDMUNDS, WELL KNOWN, IS DEAD

Former U. S. Senator Was Once Mentioned for G. O. P. Nomination.

By Associated Press Leased Wire
Pasadena, Calif., Feb. 28.—George F. Edmunds, former United States Senator from Vermont, died here yesterday, following a long illness. He was 91 years of age.

George Franklin Edmunds was United States Senator from Vermont for 25 years, from 1866 to 1891, acquiring such a reputation as statesman that on two occasions in the early '80s he was named as a candidate for the presidential nomination. The first time in 1880, he received only 34 votes, but in 1884, 93 votes were cast for him.

Though never president, he was known as adviser of presidents. President Grant publicly acknowledged

that Edmunds was one of the men to whom he was most indebted for counsel.

Born on a farm at Richmond, Vt., Feb. 1, 1800, his education was in the common schools and by private tutor, but during his life-time he received honorary degrees from four New England colleges. He studied and practiced law in his native town, and in 1851, he removed to Burlington, where the legal talent of his state was concentrated. He became speaker of the House, then president of the Senate of the Vermont Legislature. In March, 1866, he was appointed to supply the vacancy in the United States Senate created by the death of Solomon Foot and with his first speech, during the services commemorative of his predecessor, he stamped himself upon the Senate as a man of keen intellect and power.

He took a leading part in the discussions of the Senate during the turbulent reconstruction days and was active as one of his party leaders in the impeachment of President Johnson. Sheepskin Honor Roll for Convention Voters

By Associated Press
Springfield, Ill., Feb. 28.—Members of the 50th general assembly who voted in favor of the joint resolution for the calling of a constitutional convention are to have their names on a sheepskin honor roll, according to Mrs. Grace Wilbur Trout, Chicago, president of the Illinois Equal suffrage association.

Mrs. Trout and Mrs. J. W. McGraw of Chicago, chairman of the legislative committee of the suffrage organization, were here with the sheepskin and legislators who voted for the convention resolution in 1917 were asked to sign their names.

When all signatures have been obtained, a photographic copy of the sheepskin will be sent to every member whose name appears on it.

House members for the most part were reached before the end of the fiftieth session, but work was not completed in the senate, Mrs. Trout said.

The Essex Speaks for Itself

New in Name and Type—Proved in Popularity

Its Position is Assured

Marks Progressive Step in Construction and Engineering Development

The Essex was introduced without an elaborate advertising campaign. Its makers were confident it would win popularity by its performance and appearance. They wanted the car to speak for itself. They wanted the public to be its advertisers.

So eloquently has the car spoken that the number of Essex owners promises to be limited only by the production capacity of the factory. The year's only new car has won such enthusiastic admirers that we resist the temptation to describe or make claims for it. Whatever we said would of necessity be overshadowed by the praise of those who have seen the car tested.

We want you to have an actual demonstration. We know that you will recognize in the Essex a distinctively new type of car. We are sure you will appreciate the beauty, comfort, riding qualities, endurance and refinement that usually mark the costly car, combined with the lightness and economy of the inexpensive one.

Reports from the factory indicate that production can not keep pace with demand. Those

who fail to buy now may be disappointed later in the season. Probably half a million people have recognized the unusual worth of the Essex. They have made it the chief topic of automobile conversation. Salesrooms have been crowded. Waiting lists have had to be established for those who wish delivery at the earliest possible date.

Meets Every Demand

Let us prove to your satisfaction that the Essex, at a moderate price, has none of the shortcomings and limitations common with inexpensive cars. Learn why others love to ride in it and marvel at its grace and mechanical merit. See for yourself why its beauty is so much admired—why it has won unprecedented popularity with both men and women. You will see that it meets every exacting demand of youth for smartness and flexibility; that it gratifies the desire of maturity for comfort, refinement and reliability.

Flagship in After an Eventful Voyage

Hampton Road, Va., Feb. 27.—After breasting winter seas with one of its two turbine engines out of commission, rescuing the crew of a sinking schooner in midocean, sinking a derelict with its gunfire, and having three of its small boats swept away by high seas, Vice Admiral Wilson's flagship, the New Mexico, anchored today off Old Point Comfort.

Though unable to hold its position as the George Washington's escort after the accident to the turbine, the big battleship made an excellent voyage, in the circumstances, and the admiral made a record recovery from an attack of pneumonia, which prostrated him Feb. 1, and from which serious results were feared for ten days.

Harry Emerson and George Fruin and son, Lloyd, went to Oregon today on business.

Do the right thing at the right time.

Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective.

L. H. Garman, farmer, Lanark, Ill., says: "About two years ago I had been doing some heavy work on the farm and was exposed to pretty bad weather. I think it had a lot to do with bringing on my kidney trouble. I had sharp pains across my back which made me tired and nervous. My kidneys were too frequent in action, especially when I took cold and it was annoying to have to pass the kidney secretions so often. Doan's Kidney Pills were not long in ridding me of the trouble. I frequently recommend them to those I hear complaining of disordered kidneys."

Wright will be seen in this city tonight, Saturday matinee and night. The picturization of this story has taken a year and more to complete. The author at the head of the Harold Bell Wright Story-Picture Corporation of which Elsbury W. Reynolds his publisher is president, has worked constantly with a large staff of assistants. The exteriors have been taken in the Ozark mountains and the interiors in California. The work has been long and arduous—no expense has been spared, no detail overlooked. All of the people engaged in this great work have had enough thrilling experiences to last them the rest of their natural lives. The actress engaged for the part of "Sammy Lane" is an expert horse woman. In this particular, Mr. Wright was very exact. There could be no tricks of the camera—no illusions. It was not easy to meet the author's requirements. The young woman finally selected was born in Arizona, practically raised in the saddle. In the picture, the scenes

of "Sammy's" wild night ride down the mountain-side when she rides through the lightning and rain to save the good old Ephemera from the lawless Wash Gibbs gang, the spectator is shown, very clearly, why Mr. Wright emphasized the point that this actress must know how to ride horseback. This scene is one of the most thrilling ever seen upon the screen.

Semi-Monthly Pay May Be Extended

By Associated Press
Springfield, Ill., Feb. 28.—A bill introduced in the house by Representative Stevens would extend operation of the law requiring corporations to pay their employees semi-monthly to include partnerships, associations, firms and individuals, but would except agricultural enterprises. The bill went to the judiciary committee.
